Subdivision, Site Review, and Lot Line Adjustment Application Checklist
Barrington Planning Board
Adopted January 20, 2009

This checklist is intended to assist applicants in preparing a complete application for subdivision as required by the Barrington Subdivision Regulations and must be submitted along with all subdivision applications. An applicant seeking subdivision approval shall be responsible for all requirements specified in the Barrington Subdivision Regulations even if said requirements are omitted from this checklist.

An applicant seeking subdivision approval shall be responsible for providing all the information listed in the column below entitled "Subdivision" and should place an "x" in each box to indicate that this information has been provided. If an item is considered unnecessary for certain applications the "NA" box should be marked instead indicating "Not Applicable". Only certain checklist items are required for lot line adjustments, as noted by the applicable check boxes below.

Check The Appropriate Box or Boxes Below:					
<input type="checkbox"/> Lot Line Relocation See Section I & II	<input type="checkbox"/> Site Plan See Sections I & II	<input type="checkbox"/> Subdivision Plan See Sections I, II, III, IV & V			
			Provided	NA	
Section I.					
General Requirements					
1. Completed Application Form			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
2. Complete abutters list			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
3. Payment of all required fees			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
4. Five (5) full size sets of plans and six (6) sets of plans 11" by 17" submitted with all required information in accordance with the subdivision regulations and this checklist			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
5. Copies of any proposed easement deeds, protective covenants or other legal documents			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
6. Any waiver request(s) submitted with justification in writing			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
7. Technical reports and supporting documents (see Sections IX & X of this checklist)			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
8. Completed Application Checklist			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Section II.					
General Plan Information					
1. Size and presentation of sheet(s) per registry requirements and the subdivision regulations			<input type="checkbox"/>	<input checked="" type="checkbox"/>	
2. Title block information:			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
a. Drawing title			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
b. Name of subdivision			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
c. Location of subdivision			<input checked="" type="checkbox"/>	<input type="checkbox"/>	
d. Tax map & lot numbers of subject parcel(s)			<input checked="" type="checkbox"/>	<input type="checkbox"/>

TOWN OF BARRINGTON - LAND USE DEPARTMENT

PROJECT NARRATIVE

PROJECT NAME ASSOCIATED BUYERS. CASE FILE NUMBER _____

PROJECT LOCATION COMMERCE WAY

DATE OF APPLICATION 12-13-12

Property Details:

Single-Family _____ Residential _____ Multi-Family Residential _____ Commercial _____ Industrial _____

Current Zoning: RC W/ AOD Lot Area Size 4.36 AC.

Setbacks: Front 75' Side 30' (50') Rear 50'

Parking Spaces Required: N/A Parking Spaces Provided: N/A.

Please describe your project and its purpose and intent. You may attach a typed description.

Associated Buyers is looking to modify the location of its freezer to the rear position shown on the plan. Currently there is not enough freezer space available, and outside trucks with loud condensers are being used. Additionally the floor of the interior freezer has proven it cannot withstand the consistent use whereas it continues to heave and crack the concrete. The new 7200 SF freezer would eliminate the interior problem as well as the outside truck/freezer use. The condensers for the new freezer will be located to the front / loading area so the noise is not directed in abutting directions.

A new three phase power will be dropped to a pad mounted transformer also located to the front area. The roof of the structure will be single slope and is tipped towards a rain garden designed against the rear of the building. This is to treat and attenuate flows off the new roof. The septic tank location is being modified so maintenance can continue without interruption. No new employees are being added to the operation and therefore no further parking is required.
